INTERNSHIPS

Web Developer July, 27 – Present
CodeSoft *Remote*

- Designed and developed dynamic and responsive websites using **HTML, CSS, JavaScript**
- Worked with **REST APIs** to retrieve and display data from databases

PROJECTS

Stitching Together Smiles *HTML, CSS, JavaScript* Source Code

- Stitching Together Smiles, a cloth donation website where compassion threads a tapestry of happiness. Our mission is to bring smiles to those in need through the power of clothing donations.
- Utilized **responsive design** to ensure compatibility across all devices
- Deployed on GitHub pages via GitHub Actions

Personal Portfolio Website *HTML, CSS, JavaScript, Git* Source Code

- This interactive website demonstrates my proficiency and showcases my ability to not only design captivating experiences but also manage data with efficiency.

Menstruation Blood Classifier *OpenCV, Pre-trained Models, RESTful APIs, Figma* Source Code

- Crafted from Figma designs, the Menstruation Blood Classifier is an AI-powered SaaS mobile app. It analyzes menstrual blood images, providing health insights and personalized advice.
- Implemented features like social logins, authentication, authorization, session management, payment gateway integration, wallet integration, etc .

COURSES / CERTIFICATIONS

- Java Full Stack Development Training
- Agile Methodology Job Simulation
- Drone Design and Development Workshop
- Kodular App Training
